

G3 Flux Remover

1631

Flux removers (defluxers) remove flux residues and other contaminants left by manufacture, rework, or repair of printed circuit boards. Residues from higher, leadfree temperatures are more baked on and harder to clean. Techspray flux removers have been proven very effective at removing fluxes baked on at leadfree temperatures.

Non-flammable & powerful cleaner

G3 has a powerful spray and strong solvent that blasts off residues and cleans areas under components that a brush cannot touch. Patented defluxer formulated to be powerful and nonflammable, yet economical. Eliminates brushing and scrubbing, saving time and materials.

- Powerful cleaner
- Non-flammable
- Non-ozone depleting
- Safe on electronics
- Rapid evaporation
- Zero residue
- Safe on most plastics
- EPA SNAP approved
- Proven effective for lead-free processes
